PRIVACY STATEMENT

Your login, password, access code and other access credentials may include personal data. They are strictly personal and confidential. Do not share them with anyone. Under no circumstances whatsoever may the Company be held liable in the event of any irregular or fraudulent use of these credentials by anyone. By accessing the website and its content, you authorize us to collect and process your credentials (including on servers maintained on the cloud by third party hosting providers) for the legitimate business purpose of enabling access to and use of our technology. We will retain your credentials for a period of up to two years after you have ceased to be an authorized user. You have a right to access, rectification and deletion of your personal data or to object, for legitimate reasons, to the processing of your personal data.
